From where I sit ... by Joe Marsh
Now It's Neckties Made of Milk!
Fellow in Andy Botkin's Tavern was boasting about a trick necktie he was wearing made out of a by-product of mill. "Took 33 pounds of milk to make this tie," he says.
Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a necktie made from thirty barrels of it!"
Yes, modern science being what it is — seems like you can make "anything out of anything" these days. But in the case of milk, well I guess drinking it is still a whole lot better than just wearing it.
Of course there are lots of other ways of abusing goods and beverages — like a fellow who doesn't appreciate good beer enough to drink it slowly and in moderation.
But from where I sit, most people who enjoy a wholesome beverage like beer or ale are moderate — because beer itself is a beverage of moderation.
